EXPERIENCES

OpenText | EDI Developer
February 2015 - August 2017

- Developed & maintained application softwares for clients' B2B transactions
- Reports to the Project Manager(PM) / Delivery Manager(DM) regarding the status of each client's requests
- Coordinated with onshore counterparts (analysts and PMs) to set client expectations during development
- Involved with fixing production issues. To avoid repeating the same mistake, initiated coding practice and process improvements specific for the project
